Product Guide

Interior & Exterior Paint

ULTRA PREMIUM

Scuff-Tec

- Scuff-Resistant Technology includes washability, stain & scuff resistance, all while delivering a sleek, silk-like finish
- Remarkable durability

Scuff-Tec is a line of **ultra premium-grade paint**, designed with **Scuff-Resistant Technology (SRT)**, a result of a fusion of high performance acrylic urethane cross-polymer technologies. Scuff-Tec is perfect for high-traffic environments and any surfaces that require scuff and burnish resistance.

Finishes: 9210 Matte, 9220 Satin

ULTRA PREMIUM

Polytec

- Resistance to house-hold cleaners
- Adhesion to plastic surfaces
- Will not yellow
- Resistance to abrasion, stains, & moisture
- Low VOC & odor
- Meets MPI standards

Polytec is a line of **alkyd urethane finishes** for interior and exterior residential and commercial surfaces when a highly durable, chemical resistant, non-yellowing enamel finish is desired. Polytec is perfect for interior cabinets, wood paneling, doors, frames and exterior handrails.

Finishes: 5710 Flat, 5730 Eggshell, 5740 Semi-Gloss, 8730 DTM Eggshell, 8740 DTM Semi-Gloss, 8750 DTM Gloss

PREMIUM PLUS

Carefree

- Excellent hide & coverage for a uniform finish
- Low VOC & odor
- Anti-Microbial
- Qualifies for LEEDv4 credit
- Meets MPI standards

Carefree is a line of **100% acrylic paint** product used for interior and exterior residential or commercial applications where durability stain, and dirt resistance is desired. Carefree is perfect for primed drywall, concrete, masonry, wood and metal.

Finishes: 8100 Flat, 8200 Velvasheen, 8300 Eggshell, 8400 Semi-Gloss, 8500 Gloss

PREMIUM PLUS

Protec

- Corrosion Resistant
- Can be used as a DTM
- Excellent resistant to abrasion, moisture & chemical fumes
- Low VOC & odor
- Qualifies for LEEDv4 credit
- Meets MPI Standards
- Super compliant

Protec is a line of **alkyd emulsion enamel finishes** for both interior and exterior surfaces, and architectural and light industrial applications. Protec is perfect as an industrial maintenance coating for metal, wood, concrete, and masonry surfaces.

Finishes: 9700 Satin, 9800 Semi-Gloss, 9900 Gloss

PREMIUM

Acriglo

- Provides a tough, flexible finish
- Outstanding resistance to chalking & fading
- Meets MPI Standards
- Super compliant

Acriglo is a **100% acrylic paint finish**, an excellent choice for commercial, institutional, property management and new home construction projects. Acriglo is perfect for properly primed concrete, stucco, masonry, wood (new or previously painted), and metal.

Finishes: 1750 Velvasheen, 2800 Flat (Int. Only), 7000 Semi-Gloss, 7100 Flat (Ext. Only), 7500 Eggshell

Vista Paint Is...

MANUFACTURED USING 100% SOLAR ENERGY

NON EG CERTIFIED

Vista Paint is the industry leader when it comes to relying on renewable energy. At Vista Paint, our products are manufactured using 100% solar energy.

Ethylene Glycol (EG), is a toxic air contaminant and hazardous pollutant. EG is a solvent used in some water-based paints. Vista Paint has replaced EG with non-toxic alternative solvents.

PREMIUM

Duraglide

- Exceptional touch-up
- Outstanding hide
- Good washability
- Good color retention & adhesion

Duraglide is a **vinyl-acrylic flat finish** designed for interior and exterior surfaces where an ultra-flat finish is required. Duraglide is perfect for properly primed concrete, masonry, drywall, stucco, plaster and metal. Not recommended for exterior wood.

Finishes: 1000 Flat

PREMIUM

V-PRO 5000

- Provides a tough, flexible finish
- Outstanding resistance to chalking & fading
- Meets MPI Standards
- Super compliant

V-PRO 500 is a line of **ZERO VOC, premium grade, latex paint finishes ideal for primed walls and ceilings**. Designed for commercial/institution projects. V-PRO 500 is perfect for new interior and exterior drywall, plaster, masonry, concrete and block. Not recommended for horizontal surfaces.

Finishes: 5100 Flat (Interior Only), 5200 Velvasheen (Interior Only), 5300 Eggshell, 5400 Semi-Gloss

Exterior Paint

PREMIUM PLUS

Duratone

- Exceptional resistance to fading & chalking
- Exhibits excellent color retention, hide & adhesion
- Superior washability, stain & mildew resistance
- Meets MPI standards

Duratone is a **matte flat, 100% acrylic finish** used for exterior applications where the highest performance in durability and coverage is required. Duratone is perfect for properly primed new or previously painted wood, stucco, concrete, masonry and metal.

Finishes: 2000 Matte Flat

PREMIUM PLUS

Weather Master

- Superior long term elasticity & elongation under extreme weather conditions
- Resist mildew & dirt pick-up with excellent color retention
- Water resistant
- Meets MPI Standards

Weather Master is a **100% acrylic medium build elastomeric coating**, designed for application and exterior, vertical application when elasticity and elongation properties are required. Weather Master is perfect for properly primed concrete, stucco, plaster, masonry surfaces and all textures.

Finishes: 1900 Flat

PREMIUM

Acribond

- Excellent color retention
- Mold and mildew resistant
- Excellent flow & leveling for easy application
- Superior adhesion
- Meets MPI standards

Acribond is a **100% acrylic solid-bodied flat stain and finish** for exterior surfaces and applications when excellent performance in durability and coverage are required. Acribond is perfect for properly primed concrete, stucco, masonry, smooth wood (new or previously painted), and metal.

Finishes: 3000 Flat

SUPERIOR

Coverall

- Offers excellent alkaline resistance with a matte flat finish

Coverall is a **100% acrylic flat paint finish** created for commercial and institutional construction where a durable, easy to apply paint finish is required. Coverall is perfect for exterior tilt-up masonry, stucco, CMU, repaint of wood siding and trim.

Finishes: 2200 Flat

Interior Paint

SUPERIOR

Coverall

- Exceptional resistance to fading & chalking
- Exhibits excellent color retention, hide & adhesion
- Superior washability, stain & mildew resistance
- Meets MPI standards

Coverall is a line of **vinyl-acrylic enamel paint finishes** formulated for commercial, institutional, & new home construction. Coverall is perfect for properly primed new and existing interior drywall, plaster, concrete, masonry, and wood. Not recommended for wood cabinets/doors.

Finishes: 1200 Low Sheen, 1300 Semi-Gloss, 7400 Semi-Gloss, 7500 Gloss

SUPERIOR

V-PRO 300

- Excellent scubbability & washability
- Creates gloss uniformity & minimizes wall imperfections
- Super compliant

V-PRO 300 is a **latex, ZERO VOC quality grade of flat and enamel paint product**, designed for repaint maintenance and multi-family housing. V-PRO 300 is perfect for properly primed walls and ceilings including masonry, plaster, concrete, acoustic wood and metal surfaces.

Finishes: 310 Flat, 320 Velvasheen, 330 Eggshell, 340 Semi-Gloss
